

Assembly and Kitting

Metal Coatings will assemble your products and put them into kits so we can ship them direct to your warehouse or customer.

- Kit parts for specific quantities in bags or boxes
- Full assembly of parts before packaging
- Labels for individual parts or packaging

Shipping

- Metal Coatings runs their own delivery throughout the Twin Cities metro and surrounding areas; this service is FOB your dock.
- We contract freight throughout the United States and will set-up the delivery to whatever destination you request.
- UPS is literally across the street for any small package deliveries and shipments.

Metal Coatings takes care of all your shipping needs

About Us

Metal Coatings is a one source fabricator with over 150 years combined manufacturing experience and our focus is on delivering our customers a finished product. We take our customers design from the raw material stage all the way through finishing, we'll even assemble and package. This leaves more time for our customers to focus on their business and sales, versus the next stage of manufacturing or production.

Metal Coatings is a *Job Shop Manufacturer* that meets all your fabrication needs. Our focus is on adding services so our customer can minimize their scheduling by having their products made 100% in our facility. We ship a complete and assembled product per our customer's specifications. We can be used to source one component or the whole assembly.

We work with all types of aluminum, stainless steel and mild steel. We also fabricate and machine most plastics, copper, bronze and wood.

Equipment and Capabilities

- *Drafting*
- *Laser Cutting*
- *Flame Cutting*
- *Plasma Cutting*
- *Shearing*
- *Sawing*
- *Sheet Metal Forming*
- *Punching*
- *Tube Bending*
- *Rolling*
- *Drilling*
- *Machining*
- *Turning*
- *Broaching*
- *Welding*
- *Powder Coating*

Welding

We are capable of MIG, TIG and Robotic welding. Our welders are certified to AWS D1.1

Laser Cutting

We utilize a LVD Orion 3015 for our laser cutting. We have a compact tower on our laser for lights out manufacturing, which allows us to make quick turnarounds on all laser cut parts.

Laser Cutting Capabilities

- Mild Steel up to .750"
- Stainless Steel up to .625"
- Aluminum up to .375"
- Sheet sizes 60" X 120"

Machining Services

Our machine shop has 2 CNC Milling Centers and 2 CNC Turning Centers. This is a value added service so our customers can avoid being put on another schedule.

Milling Capabilities

- Aluminum, Stainless, Mild Steel, Plastics, Copper, Bronze and Wood.
- Parts Size 20" X 40" X 26"

Turning Capabilities

- Aluminum, Stainless, Mild Steel, Plastics, Copper, Bronze and Wood.

- Thru Bore Size 2.5"

Tube Bending

We bend or roll round and square tubing, angles or solid materials. Call for specific radius on your desired materials.

Bending

- .250" diameter to 2.375" diameter
- Wide variety of radiuses
- Tolerance +/- .062"

Rolling

- Up to 2" Square and 2.375" Round
- Up to 2" Angle
- Up to 1.25" Solid

Sheet Metal Forming

We have a 7 axis 175 ton 14' LVD CNC Press Brake with the capabilities of forming most of your needs. We also have a 12 ton and a 35 ton press brake for smaller parts.

Powder Coating Services

We powder coat large batches or individual parts. Our batch oven has the capability of handling large batches at one time or individual items up to 19-1/2 feet in length.

- Quantities of one to unlimited
- Oven size: 19' 6"L x 7' 6"W x 7' 6"H
- 5 stage cleaning process
- Hundreds of stock colors
- Some high temp colors available up to 800 degrees
